Summer at Salamander

As we enjoy the summer holiday period, we have been searching out long lasting, reusable and sustainable products for use not just this summer but for many more to come; we can all play our part and contribute a little to reducing the number of single use items. Some of our favourites include reusable picnic ware, hydration bottles and coffee cups, home ice-cream makers, cool bags made with recycled materials, eco-friendly children's tableware, last forever grill pans, griddles and woks and the travel Wine Coolers. Everything listed below in our Summer at Salamander range is offered with an extra **10% off for newsletter subscribers** - just show your newsletter on your phone when you buy.

The **Eddington's Mediterranean Garden** range elevates picnic ware to a new level as it looks just like ceramic, is great quality and will last for many years. We are offering it at **25% off RRP with an extra 10% for newsletter subscribers**. Just show a copy of this newsletter on your phone to claim.

Hydration bottles are already very popular, keeping drinks hot for 12 hours and cold for 24. The larger 750ml are great for trips away and days out too. **Chilly's Bottles**, especially the new silicone topped, easier to drink from Series 2, are very popular and the attractive new Tate series of artist designs are now in stock. We have **Out to Lunch** food pots that keep items warm or cold too. Multi-use coffee cups and mugs come in all shapes and sizes. If you want to avoid instant coffee when away the iconic **AeroPress** or the **Zyliss cafetiere** travel mug will give you a great cup of your favourite coffee.

We have two types of **home ice cream and sorbet makers**. The all in one **Cuisinart** freezes your mix and gets everything ready to serve - we have one only at a **special price of £240 reduced from the RRP of £299**. The great **Magimix Le Glacier** has a bowl you freeze first, is good quality and very affordable at £55. **Cool Bags** are a really flexible product. Great for days out, a longer walk or taking lunch to the office and useful for food shopping on hot days too. Some are made from recycled materials including Dexam's RPET range and Eco Chic lunch bags.

Koziol Children's tableware is an attractive European product made with 100% bio-circular materials and free of melamine, BPA and formaldehyde.

Cooking outdoors is often a joy, and we love the space saving **flexible cast iron gas burners**, great 4 for a cast iron griddle, wok, paella pan or frying pan. These run on patio gas, and we think are easier and cleaner than a gas BBQ. They are also small enough to take on holiday. We now have the **Spanish Vaello Paella** gas burner set with pan in stock at £79.

We have a wide range of **tools, gadgets and accessories** including pizza stones, pizza serving plates, tortilla holders, burger presses, BBQ tools and a good range of reusable unbreakable wine glasses.
